Question # 5

Does the CALL TRANSACTION method allow multiple transactions to be processed by SAP?

Answer:-

No. The CALL TRANSACTION method allows only a single transaction to be processed by SAP.

[Read More Answers.](#)

Question # 6

What are the steps in a BDC session?

Answer:-

The first step in a BDC session is to identify the screens of the transaction that the program will process. Next step is to write a program to build the BDC table that will be used to submit the data to SAP. The final step is to submit the BDC table to the system in the batch mode or as a single transaction by the CALL TRANSACTION command.
