Google Job Interview Preparation Guide.

Question # 1

How do you handle stress?

Answer:-

I'm not the type of person that becomes stressed very easily. However, if in an extreme circumstance I did start to become stressed, I would look to the cause of it and attempt to identify a solution. I would certainly not be afraid to look to others for their input and assistance. In a working environment I think stress comes around from pressurized situations. In such cases the best solution is often one of situation management until the crisis abates.

Question # 2

What are your weaknesses? How do you overcome them?

Answer:-

I am always ready to learn new skills and adapt my methods to become better at what I do. If I become aware of a weakness in my knowledge base or in the way I perform my duties, I do my best to fill that gap whether through formal training, informal training, or directly from my colleagues.

Question # 8

This is an unusual paragraph. I am curious how quickly you can find out what is so unusual about it? It looks so plain you would think nothing was wrong with it! In fact, nothing is wrong with it! It is unusual though. Study it, and think about it, but you still may not find anything odd. But if you work at it a bit, you might find out! Try to do so without any coaching?

Answer:-

The letter "e", which is the most common letter in the English language, does not appear once in the long paragraph.

Question # 30

Common Google Interview Questions

Answer:-

Here are some more questions: -

- 1) How do you look up for particular words in dictionary explain the process? (This question has been since ages and it is important).
- 2) Which work related to your field of education or experience makes you happy?
- 3) Which work can you perform without getting tired for hours?
- 4) Approximate how many gas stations are there in United States, any specific logic for arriving at the answer?
- 5) Three boys stole some mangoes from a garden. As it was late in the evening they decided to divide the fruit equally among them in the morning, and went to sleep. At night while the other two were sleeping, one boy woke up, tip-toed to the basket of mangoes, counted them and ate one. From the remainder he took a precise third and went back to sleep. After some time a second boy woke up. He counted the mangoes, ate one, took an exact third of the remaining and went back to sleep. A little before sun rise the third boy also woke up, ate one, and like the other two boys took a precise third of the remainder in whole mangoes. In the morning, all the three boys went together to the basket of mangoes, counted them. Amongst them they found a ripe mango and discarded it as it was not good for eating. From the remainder they made an exact division.
Find the total number of mangoes which were stolen from the yard?
- 6) The cherry is a round fruit with a round stone. If the flesh of the cherry around the stone is as thick as the stone itself, can you calculate mentally how much more pulp than stone there is in the cherry?
- 7) A monument in India is marked as MDCLXVI which year does it represent?

Make sure that you read probability questions because there would be at-least one question from that.

Best of luck.
