Question # 3

What are termination roles of an element?

Answer:-

Termination Rules of an Element:

- a).Actual Termination: For a nonrecurring element, select Actual Termination if you want the entries to close down at the end of the pay period in which the employee leaves.
- b).Final Close: if you want the entries to stay open beyond the employee's leaving date so that you can continue to pay the employee.
- c).The Last Standard Process date defaults to the last day of the pay period in which the employee is terminated, but you can set it to a later period when you terminate an employee.
