Political Science Job Interview Preparation Guide.

Question # 1

I am thinking of doing Honors in Political Science. How do I go about this?

Answer:-

The basic process is largely the same as for independent study, but you must satisfy University requirements for eligibility for Honors, and must follow the procedures and schedule established by the University Honors Program. Also, this is usually a two-semester project, and we strongly recommend that you start thinking and consulting an adviser about this during the spring of the junior year, so that you will be able to turn in a formal proposal to the Honors Council in early October.

Question # 2

As a non-major, what courses are available to me in the department?

Answer:-

It depends. While none of our courses have mandatory prerequisites, it makes good common sense to take PSI 1101 ?Introduction to Political Science? before enrolling in upper level courses. However, if you have considerable experience in the social sciences, you may well feel comfortable and confidence in any of the 2000 level courses. Talk with any political science professor to reach a reasonable decision.

Question # 3

What are motives for imperialism?

Answer:-

Economic - motives included the desire to make money, to expand and control foreign trade, to create new markets for products, to acquire raw materials and cheap labor, to compete for investments and resources, and to export industrial technology and transportation methods. 2.) Political- motives were based on a nation's desire to gain power, to compete with other European countries, to expand territory, to exercise military force, to gain prestige by winning colonies, and to boost national pride and security. 3.) Religious- motives included the desire to spread Christianity, to protect European missionaries in other lands, to spread European values and moral beliefs, to educate peoples of other cultures, and to end slave trade in Africa. 4.) Exploratory- motives were based on the desire to explore "unknown" or uncharted territory, to conduct scientific research, to conduct medical searches for the causes and treatment of diseases, to go on an adventure, and to investigate "unknown" lands and cultures.

Question # 5

What jobs can you get with an associates degree in political science?

Answer:-

The best place for the answer to this question is the college offering the degree. The division office or academic department that offers the degree should have information on the kinds of jobs their graduates have obtained.

Question # 6

Can AP credit substitute for a core course, or otherwise count toward the major?

Answer:-

No. AP grades of 4 or 5 in Politics count as electives and toward overall distribution requirements, but do not count toward the major. Any AP credit will appear as an elective in your degree progress report. (If you are missing a credit you have earned, see the Registrars Office.)

Question # 9

What is the importance of political science meaning of state what is nature?

Answer:-

Political science, as currently conceived, is a relatively new concept that dates to the nineteenth-century United States. Prior to this time, the study of politics in the West remained a part of natural philosophy, and it tended to focus on philosophical, historical, and institutional approaches. The ancient Greek philosopher Aristotle is often named as the first "political scientist," but his approach differs markedly from what is currently understood to be "political science." Aristotle primarily occupied himself with addressing what sort of political system would best enable the highest human life of eudaimonia (happiness). In the Politics, Aristotle surveys an array of constitutions, separating them into six categories based on how many rule the system and whether or not they rule well. This may be considered an empirical study of sorts and perhaps the first "typology," but his method of study falls well short of what is currently considered to be scientific.

Question # 12

What are the three things you would like to change in this world?

Answer:-

If there was anything in the world that i would change it would be

1. Lack of innocence- it's amazing how young children are aware of the evils of the world.
 2. Selfishness- it seems like nobody wants to help anybody out without some other ulterior motive like publicity, or money, or whatever
 3. Divorce- to make a commitment like marriage should be kept. Honestly switching out husbands like you try on a different pair of shoes will not make you happy. And marriage isn't about being happy, it's about commitment and building a family, for better or worse.
1. Lack of respect for smaller (poor)people.
 2. Corruption - People used to work only for the money ,no charms regarding their work.
 3. Religious matter .

Question # 16

I am thinking of doing independent study in Political Science. How do I go about this?

Answer:-

Independent study is intended for those who want to develop their own program of advanced study on a topic in which they already have an interest. If there is a topic you would like to spend a semester working on, consult with the faculty member who is most likely to be able to guide you through that research. You should be able to present him or her with a rough outline of what you hope to do and hope to accomplish. If the instructor agrees to work with you on this, the next stage is to put together a proposal for the project, which should spell out what you plan to read and what you plan to write in some detail. This requires departmental approval, and the proposal must be submitted for approval at least two weeks before registration. Please note that you must have already taken the core course/courses relevant to your topic, as well as any other specialized courses offered that would prepare you for your project.

Question # 22

How do I minor in Political Science?

Answer:-

There are five minor programs in Political Science, outlined in the catalog: a general minor, and four others built around each of the four subfields. Each requires five courses. You declare the minor AFTER you have taken the courses. When you are ready, fill out the necessary form, available at the office of the Dean of Arts and Sciences, and have the form signed by the department chair.

Question # 25

Can I meet major requirements with courses taken off campus?

Answer:-

Yes, though no more than two courses can transfer as major credits, and both will need to be approved by the department chair. If, however, the courses were taken at one of the Bucknell-in programs (in London, Grenada, Tours, Barbados, or Northern Ireland), they count as regular Bucknell credits, and do not count against the two-course limit. For those studying abroad, it is strongly recommended that the core courses be completed before leaving campus. These courses cannot be taken as part of the study-abroad program.

Question # 27

What do the course numbers mean?

Answer:-

The political science department offers courses at the 100 and 200 level. The 100-level courses are the same political science courses one would take at the freshman level at a university, such as Political Science 103.

The 200-level political science courses are the same political science courses one would take at the sophomore level at a university. You do not have to take the courses in numerical order, although the 100-level courses usually provide a background in political science that you might find helpful in a 200-level course.
