Top 17 Behavioral Interview Questions As Rail Traffic Controller:

Answer:-

Behavioral interviews As Rail Traffic Controller were popularized by industrial psychologists in the 1970s, and have been used at big companies like AT&T. The idea behind them is that past responses to situations are the best predictor of how candidates will respond in the future.

1. Tell me about a time you faced a conflict while working as part of a team.
2. Talk about a goal you set for yourself. What did you do to make sure you met the goal?
3. Give an example of a time when you had to work with someone with a very different personality from yours.
4. Talk about an instance where you wish you'd handled a situation differently with a team member.
5. What's the most difficult problem you have had to solve As Rail Traffic Controller?
6. Give an example of how you handled a situation where you needed information from a colleague who wasn't responsive.
7. Talk about a time when you had problems building a relationship with a key team member. What did you do?
8. Tell me about an instance when it was important to make a great impression on a client. What did you do?
9. Tell me about a situation where you had to work with a difficult client.
10. Tell me about a situation where you disappointed a client, and how you tried to fix it.
11. Talk about a time when you had to strategize to meet all your obligations.
12. Talk about a time when you failed at something. How did you react?
13. Talk about a time you took on a leadership role.
14. Tell me about a long-term project you oversaw. How did you keep it focused and on schedule?

Question # 48

How many square feet of pizza are eaten in the United States each month?

Answer:-

This is a classic guesstimate question where you need to think aloud. And so first off you round the U.S. population to 300 million people (it's actually about 315 million but rounding will be much easier and your interviewer will not score you lower for rounding). Then estimate how many people eat pizza. A decent educated guess is two out of every three people, or 200 million. Now let's say the average pizza-eating person eats pizza twice a month, and eats two slices at a time. That's four slices a month. If the average slice of pizza is perhaps six inches at the base and 10 inches long, then the slice is 30 square inches of pizza. So, four pizza slices would be 120 square inches (30 times 4).

Since one square foot equals 144 square inches (12 times 12), let's assume that each person who eats pizza eats one square foot per month. Since there are 200 million pizza-eating Americans, 200 million square feet of pizza are consumed in the U.S. each month. To summarize: 300 million people in America, 200 million eat pizza, average slice of pizza is six inches at the base and 10 inches long or 30 square inches, average American eats four slices of pizza a month, four pieces times 30 square inches equals 120 square inches (one square foot is 144 square inches), so let's assume one square foot per person, and thus one square foot times 200 million people equals 200 million square feet of pizza a month.

Question # 71

What schedule do you hope to work? Are you willing to work extra hours?

Answer:-

Be honest. If you really want the job and are willing to work any schedule needed, say so. If, however, you have no intention of working late hours or weekends, simply let the interviewer know the hours that you are available to work. The same applies to extra hours. You are more likely to be hired if you are willing to work any time you are needed. However, saying that you are willing and then complaining about the hours once you start working is a recipe for disaster.
